MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 385

This transmittal distributes the Missouri T&E Species Planning Matrix and the MO-CPA-52 T&E Planning Decision Flowchart. The matrix and flowchart serve as guides for completing the MO-CPA-52 – Environmental Analysis for Conservation Planning. Typical conservation practices have been displayed on the matrix. If you encounter difficulty in judging the impact of a conservation practice on a T&E species, consult with your Area Office.

The T&E Species Planning Matrix is a companion tool to the Missouri Natural Heritage Database adapted for NRCS use. These two tools can provide analysis for location of species/habitats of concern as well as the impacts of proposed actions.

Filing Instructions: The T&E Species Planning Matrix and the MO-CPA-52 T&E Planning Decision Flowchart have been posted on the Missouri eFOTG under Section II - F. 3. Conservation Planning Guidance. The Area 1 T&E Planning Matrix has been removed from this section of eFOTG and replaced with these statewide tools.

If you have questions contact Pat Graham (573-876-0908).

A handwritten signature in black ink that reads "Roger A. Hansen".
